## PROFILE SUMMARY

- Software Developer with **2+ years** of experience building clean, scalable, and user-centric web applications using modern **full-stack** technologies.
- Java Full Stack Developer skilled in **Java**, **C++**, and **JavaScript**, with hands-on experience in **Spring Boot**, **React.js**, and **Next.js**.
- Experienced in end-to-end development including responsive UI design, **RESTful APIs**, **MySQL** and **MongoDB** integration, secure authentication, payment integrations, testing, and cloud deployments.
- Successfully completed the **100 Days of Learning Challenge**, strengthening skills in DSA, Web Development, and Core CS fundamentals through consistent learning and practice.
- Strong problem-solving skills with **450+** coding problems solved on LeetCode and GeeksforGeeks.

## TECHNICAL SKILLS

**Programming Languages:** Java, C++, JavaScript, TypeScript SQL
**Frontend:** HTML, CSS, Bootstrap, Tailwind CSS, React.js, Next.js, Angular.js, Material UI, Redux, Responsive Web Design, UI/UX Fundamentals
**Backend:** Spring Boot, Spring MVC, Spring Security, Hibernate/JPA, Node.js, Express.js, REST APIs, Authentication & Authorization (JWT, OAuth)
**Databases:** MySQL, MongoDB
**Core Fundamentals:** Data Structures & Algorithms, OOPS, DBMS
**Tools & Platforms:** Git/GitHub, Postman, Maven, VS Code, Docker (Basics), CI/CD (Basics), Vercel, Netlify
**Testing & Documentation:** JUnit, Mockito, Swagger / OpenAPI
**Other Skills:** Payment Integration (Razorpay), Microservices (Basics), Cloud Fundamentals (AWS)

## EXPERIENCE

**SOFREGO Private Limited | Software Developer**                **Jan 2024 - Present | Pune, Maharahtra**
- Developed and maintained scalable full-stack web applications using Java (Spring Boot, Spring MVC, Spring Security) and React.js / Next.js.
- Designed and implemented RESTful APIs using Spring Boot and Node.js (Express.js), enabling secure and efficient frontend-backend communication.
- Built responsive and user-friendly interfaces using HTML5, CSS3, Bootstrap, Tailwind CSS, Material UI, and Redux.
- Implemented authentication and authorization using JWT and OAuth, and integrated MySQL and MongoDB with Hibernate/JPA for optimized data access.

## PROJECTS

**FormApplication | ⬡ | React, Spring Boot, REST APIs, iText/OpenPDF, Axios, Maven**
- Built a full-stack web application using React and Spring Boot that enables users to submit structured application forms and download them as professionally formatted PDF documents.
- Designed and implemented RESTful APIs for form submission and PDF retrieval with DTO-based architecture, input validation, and centralized exception handling.
- Implemented server-side PDF generation using iText/OpenPDF, dynamically mapping user input into an official application letter format.
- Integrated Axios-based frontend–backend communication, client- and server-side validation, CORS configuration, and API testing using Postman.

**GetMeAChai | ⬡ | MERN Stack, Tailwind CSS, JavaScript, Next.js, NextAuth, Razorpay, Context API**
- Developed a full-stack web application inspired by Patreon, enabling creators to receive secure, real-time financial support from their fans.
- Integrated **NextAuth.js** for secure GitHub and email authentication with custom callbacks, reducing unauthorized access attempts by **40%**.
- Implemented **Razorpay** payment gateway for seamless transactions with live success/failure tracking and automated supporter logs.
- Enhanced user experience with responsive **Tailwind CSS UI**, toast notifications, and dynamic SEO metadata for better visibility and engagement.
