PROFESSIONAL SUMMARY

Highly motivated **Java Full Stack Developer** with **3+ years** of hands-on professional development experience building, securing, and scaling enterprise-grade web applications in the **BFSI (Banking & Fintech)** and **E-commerce** domains. Proficient in crafting end-to-end full-stack architectures using **Java, Spring Boot, Microservices, React.js, and Next.js**. Proven track record in designing high-performance REST APIs, securing systems with **JWT & OAuth 2.0** role-based authentication, and optimizing **MySQL & MongoDB** query performance under Hibernate/JPA. Collaborative team player skilled in Agile/Scrum methodologies, test-driven methodologies, and clean code practices.

TECHNICAL SKILLS

Languages: Java, C++, JavaScript, TypeScript, SQL
Backend Frameworks: Spring Boot, Spring Security, Hibernate/JPA, Spring Cloud Gateway, REST APIs, Microservices, Node.js, Express.js, Apache Kafka, JWT
Frontend Tech: React.js, Next.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI
Databases & Caching: MySQL, MongoDB, Redis, Elasticsearch, Supabase, Firebase
Tools & DevOps: Git, GitHub, Maven, Docker, Postman, Swagger/OpenAPI, AWS (EC2/S3 Basics), CI/CD (GitHub Actions)
CS Fundamentals: DSA, OOP, DBMS, Operating Systems, Computer Networks, Agile/Scrum

PROFESSIONAL EXPERIENCE

SOFREGO Private Limited

Java Full Stack Developer (Full-Time)

Jan 2024 - Present

Pune, Maharashtra

- Engineered an automated **banking loan form module** utilizing Java, Spring Boot, and REST APIs, incorporating strict server-side validation and dynamic PDF rendering to improve document processing speeds by **40%**.
- Implemented secure **JWT and OAuth 2.0 validation pipelines** using Spring Security, shielding financial endpoints from unauthorized access and establishing strict role-based access control (RBAC).
- Designed relational schemas in **MySQL** and document structures in **MongoDB** via Hibernate/JPA, optimizing complex SQL indexes and native queries to reduce search latency by **30%**.
- Authored modular unit and integration test suites using **JUnit and Mockito** to maintain **85%+ code coverage**; documented backend API interfaces using **Swagger/OpenAPI** to streamline frontend consumption.
- Collaborated in an Agile team utilizing **Git/GitHub** for version control, **Docker** for local workspace containerization, and **Maven** for build automation, actively contributing to deployment cycles and code reviews.

SOFREGO Private Limited

Frontend Developer Intern

Jul 2023 - Dec 2023

Pune, Maharashtra

- Co-developed a responsive e-commerce storefront dashboard using **React.js, Tailwind CSS, and Material UI**, creating modular components that improved interface load times by **15%** across mobile and desktop.
- Integrated client-side state management using **Redux Toolkit** to handle shopping carts and user preferences, fetching backend data with **Axios** while managing loading/error states gracefully.
- Configured and executed production frontend builds deployed on **Vercel**, optimizing assets via lazy-loading and code-splitting to enhance SEO rankings.

PROJECTS

Secure Document & Form Management System (Client Project) *React.js, Spring Boot, Hibernate, iText/OpenPDF, Axios, Maven*

- Developed an enterprise-grade form management system enabling structured user submissions and **automated server-side PDF generation** utilizing iText/OpenPDF to dynamically map raw data into official files.
- Implemented clean DTO (Data Transfer Object) architecture, CORS configurations, global custom exception handlers, and interactive API endpoints fully documented via **Swagger**.

ATS – Same Day Electronics Delivery Platform *Java, Spring Boot, React.js, Next.js, MySQL, Redis, Kafka, Elasticsearch, Docker*

- Engineered a production-grade **microservices** e-commerce platform supporting product catalog management, order processing, payments, and same-day delivery workflows.
- Implemented **JWT/OAuth** authentication, **Redis** caching, and Elasticsearch-powered search to improve security, performance, and user experience.
- Integrated **Razorpay** for secure payment processing and leveraged **Kafka** for asynchronous communication across inventory, notification, and analytics services.

EDUCATION

B.Tech - Computer Science Engineering

Chameli Devi Group of Institutions, Indore, MP

2020 - 2024

CGPA: 8.1

ACHIEVEMENTS & CERTIFICATIONS

- Solved **450+ coding problems** on platforms like LeetCode and GFG, developing deep analytical and algorithmic thinking.
- Successfully completed the **100 Days of Learning Challenge**, showing continuous commitment to studying full-stack development, data structures and algorithms.
- Certified in **Backend Web Development** (Node.js/Express) – *Microsoft Learn Student Ambassadors*.
- Certified in **React.js, JavaScript, and SQL** – *HackerRank Verification*.
